

# NUTRITION GUIDE

**Using the Canadian Food Guide as a reference, Domino's Pizza  
can be part of a healthy, balanced diet.**

Because pizza is customizable, it is possible to enjoy a variety of foods (bread, vegetables, cheese and meats) on a single slice. We choose our ingredients on the basis of safety, taste, and nutritional content to bring our consumers what they want. Domino's Pizza dedicates its attention, energy, and resources to one mission: deliver a delicious, hot and fresh pizza every time.

Every pizza ordered has the potential to be a totally unique creation, and this nutritional guide reflects that range of possibilities. Nutritional information is provided for each of the elements that go into a pizza: what size pizza, what type of crust, sauce, toppings. When you create your own pizza, to see the total picture of what you are ordering, add together the numbers for each element from these charts. For Feast Pizzas and side items, there is no need to add; the ranges for these items are the total. \*\*\* Limited availability. Check with your local store.
